SUMMARY

Software Developer with 1+ year of backend development experience in designing and deploying scalable APIs, microservices, and data pipelines. Proficient in Python, FastAPI, PostgreSQL, and AWS, with strong understanding of OOP principles, CI/CD pipelines, and containerized deployment using Docker. Passionate about building reusable software frameworks, optimizing performance, and delivering maintainable code aligned with Agile practices.

EXPERIENCE

Software Developer

Nov 2024 – Aug 2025

Oorjaa - Yatnavat Technologies Pvt. Ltd, Pune

- Designed and implemented a GPS-based Vehicle Tracking System using Python, FastAPI, PostgreSQL (SQLAlchemy), and Google Maps API, enabling real-time trip monitoring and data analytics automation.
- Developed and optimized microservices with Docker and async processing, improving API performance by 30
- Built cron-based scheduling for shift management and stoppage alerts using Python task schedulers.
- Collaborated in Agile Scrum teams for backend development, deployment via GitHub Actions, and unit testing, logging, debugging, data validation (Great Expectations).

PROJECTS

Generative AI Chat Assistant (RAG + FastAPI) Built a Retrieval-Augmented Generation (RAG) pipeline using FastAPI from Scratch. Implemented vector-based semantic search and LLM prompt chaining, enabling 85% faster response accuracy.

Real-Time Stock Market Data Pipeline (Kafka + AWS) Built a real-time data ingestion and analytics pipeline using Kafka, AWS Glue, and Athena. Enabled financial data analysis and compliance-ready reporting on AWS.

Customer Review Sentiment Analysis. Built an NLP system for classifying e-commerce reviews using SVM, XGBoost, Naive Bayes, PyTorch, and TensorFlow.

Order Service API (FastAPI + PostgreSQL + JWT) Designed and deployed scalable RESTful APIs for an online grocery system with offer validation, JWT authentication, and Dockerized microservices. Integrated CI/CD via GitHub Actions, ensuring automated testing and deployment.

EDUCATION

Post Graduate Diploma in Big Data Analytics (PG-DBDA)

Mar 2024 – Aug 2024

CDAC, IACSD Akurdi, Pune — Percentage: 62.13%

Bachelor of Engineering (Mechanical)

2021 – 2023

Bharati Vidyapeeth's College of Engineering, Pune — CGPA: 8.63

SKILLS

Languages	Python, JavaScript (Node.js), PostgreSQL, NoSQL (MongoDB)
Frameworks	FastAPI, Node.js, PySpark
Cloud	AWS (S3, Redshift, Glue, Athena, EC2), Docker, GitHub Actions, Linux/Windows
AI ML	LLMs, RAG (Retrieval Augmented Generation), Transformers, NLP Pipelines
Visualization	Tableau, Matplotlib
Tools	VS Code, Postman ,Linux

CERTIFICATIONS

- Clean Code (Udemy), SQL for Data Analysis (Udemy), Docker for Developers, Git GitHub, SOLID Principles
